Subject index

Volume 51 (2003)

Accidents **51**, 177
Adherence **51**, 247
Adolescents **51**, 163, 183
African American **51**, 107
AIDS **51**, 163
Analgesics **51**, 155
Anxiety **51**, 169
Appropriateness of care **51**, 277
Asthma **51**, 83, 133, 267
Attitudes **51**, 217

Behavioural intervention **51**, 133
Breast neoplasms **51**, 75
Brief alcohol intervention **51**, 277

Cancer risk **51**, 217
Children **51**, 177
Chronic illness **51**, 197
Clinician–patient communication **51**, 115
Combined research methods **51**, 45
Communication media **51**, 75
Communication **51**, 155, 197, 259
Complex interventions **51**, 45
Concordance **51**, 155
Congestive heart failure **51**, 267
Consultations **51**, 197
Consulting style **51**, 17
Counseling **51**, 155
Cultural beliefs and values **51**, 107

Degree of certainty **51**, 29
Diabetes care **51**, 17
Diabetes education **51**, 39
Diabetes **51**, 53, 45, 133, 267
Doctor–patient communication **51**, 99

Empowerment **51**, 17
Ethnic differences **51**, 217
Evidence-based medicine **51**, 75
Existential threat **51**, 123

Family **51**, 115
Fever **51**, 59

Gay **51**, 115
General practice **51**, 99, 149
Genetic testing **51**, 107, 217
Group certainty topography **51**, 29

Health education **51**, 207
Health literacy **51**, 267
Health services utilization **51**, 59
Healthcare **51**, 115
Heart failure **51**, 133
Heath education **51**, 59
Hospitalization **51**, 177
Hypertension **51**, 247, 267

Immigrant health care **51**, 99
Implementation **51**, 277
Information **51**, 169
Intercultural communication **51**, 99
Intervention **51**, 5, 247

Knowledge evaluation **51**, 29
Knowledge **51**, 163, 285

Lesbian **51**, 115

Mammography **51**, 65, 75
Managed care **51**, 267
Management **51**, 183
Medical mistrust **51**, 217
Medication-related knowledge **51**, 229
Mutual understanding **51**, 99
Myocardial infarction **51**, 123

Need for knowledge and support **51**, 123
Nicotine replacement therapy **51**, 143
Nurses **51**, 277
Nursing care **51**, 123

Outcomes **51**, 17
Overweight **51**, 183

Pain assessment **51**, 169
Parent education **51**, 83
Parents **51**, 59
Patient acceptance of health care **51**, 65
Patient compliance **51**, 99
Patient education **51**, 45, 207, 239, 267
Patient encounter **51**, 53
Patient participation **51**, 17, 149
Patient satisfaction **51**, 149, 259
Patient–physician interaction **51**, 247
Patient-centered **51**, 229
Patient-centredness **51**, 197
Patients' learning **51**, 53
Patients' perspective **51**, 239
